Case Report - Patient 17 - 2024

Case Background

Male, Age: 58

Case Data

Day 0 - Tuesday - Date of pronouncement.

Day 6 - Monday - The patient's family contacted us for services.

Day 7 - Tuesday - We spoke with the autopsy service doctor to coordinate the removal procedure and immersion fixation protocol.

Day 8 - Wednesday - The patient's brain was removed and was fully immersed in neutral buffered formalin by the autopsy service doctor, and the container was placed in refrigeration.

Day 28 - Tuesday - We sent out shipping container and packaging supplies to the autopsy service.

Day 48 - Monday - The patient's fixed brain arrived at our facility. Upon arrival, the patient's brain was immediately transferred to permanent storage in a container with 10% neutral buffered formalin, which was put in refrigeration.
